

729 rubber energy storage

What is the difference between 729-08 and es rubber?

729-08 ES has the same topsheet as the original 729-08 rubber. It comes in three sponge hardness-45,47,and 49. The ES sponge is more springy than that of the original 729-08. In terms of spin and control, there's little difference between ES and the original. Both aspects of the ES rubber are amazing.

What is 729fx rubber?

Shipping calculated at checkout. 729FX rubber is relatively soft, light and great for accurate ball placement, rally and transitional game in addition to the traditional tackiness. The sponge is the new energy storage CROSS sponge.

Is friendship 729-08 es rubber good?

Friendship 729-08 ES rubber is very cheap however it is very controlled and very spinny. I will keep using this rubber on my backhand for a long time. My games have been improved lots since I use Friendship 729-08 ES rubber on my backhand.

How many users use friendship 729 729-08 es?

There are 2 users using the Friendship/729 729-08 ES. Energy Storage (ES) Technology Reviews (14)
Friendship/729 729-08 ES vietma on 5/8/2014 I have been using Friendship 729-08 ES on my backhand for quite a while. I really love this rubber. With this rubber, I could loop every ball on my backhand regardless short or long ball.

What is the best 729 rubber for a plastic ball era?

Boosted on a fast blade (carbon or wood type depends on playing style) probably the best 729 rubber for the plastic ball era. kourosz' review is very accurate and thorough, although I find the flat hit smashes very fast when boosted and feel no speed limit disadvantage in this respect. Battle 2 is surprisingly light considering its sponge density.

729 rubber energy storage

With the sticky surface, the rubber can produce strong spin. Because of the above characteristics, no matter attacking or defending 729 is relatively soft, light and great for accurate ball placement, rally and transitional game in addition to the traditional tackiness. The sponge is the new energy storage CROSS sponge.

Friendship/729 Battle II reviews and ratings on Revspin .Latest 729 rubber Battle II is designed for professional power loopers at the forehand. Relatively harder sponge with great top spin kick at the same time having great control. This tacky rubber applied the special integration technology so that the attachment of the top sheet to the sponge is optimized.

The rubber is more delicate and soft, the non-sticky surface is more lasting, the friction is strong, and it is easier to create rotation. The newly upgraded sponge adopts energy storage tension technology, combined with SENSOR bonding technology, it has super elasticity without booster. It's suitable for backhand fast attack with loop style.
