

Alpha backup power

What is an alpha cableups?

Alpha has provided specialized uninterruptible power supplies(UPS) for more than 40 years. With impressive backup power capabilities,integrated generators,dual power grid switching and enhanced battery thermal management,an Alpha CableUPS ensures improvement in the overall efficiency and reliability of a broadband network.

What makes Alpha a good UPS battery?

Alpha's UPS batteries are good because they use the latest AGM (Absorbed Glass Mat) technology,which lowers internal resistance for superior high-rate,short-term discharges. This delivers critical power when needed. With a 10-year design life,they continue to deliver reliable standby power when conventional standby batteries might already have failed.

What is an Alpha UPS system?

Alpha UPS systems,from Alpha,an EnerSys Company,are designed to meet your power requirements,with models for traditional indoor applications and more rugged and outdoor applications. Alpha offers a complete line of AC and DC powering solutions.

Why should you choose Alpha's; uninterruptible power supplies (UPS)?

Alpha's; Uninterruptible Power Supplies (UPS) have endured as the world leading cable broadband UPS products for over 40 years. Designed for the worst outdoor conditions imaginable,our reputation for performance and endurance speaks for itself.

What is Alpha power?

Alpha,an EnerSys Company,offers a complete line of AC and DC powering solutions to meet your power requirements. Alpha systems are custom engineered to backup and protect sensitive,mission-critical electronic equipment.

What is the difference between Alpha FXM & Alpha Micro ups?

The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series for lower power applications. It comes in a single,easy to install cabinet. Optional add-on battery cabinets support applications where longer backup times are required. The system is available in either North American (120Vac/60Hz) or International (230Vac/50Hz) variants.

Alpha's Automatic Generator Transfer Switch automatically transfers the input to the UPS from the utility line to a portable AC ... The UATS ensures continuous operation of your systems either with conditioned line power, battery backup power or power direct from the line should the UPS require maintenance. Contact Us for More Information.

Alpha backup power

With 40-years of outdoor power equipment design, Alpha's expertise in power electronics, enclosure design, and monitoring, come together to ensure reliable backup power. Alpha Services. Engineering & Installation. We work to combine your small, medium, and large-scale projects with the installation resources for complete design, construction ...

Description . The AlphaCap provides short duration backup power for 48Vdc powered remote loads used in xDSL and FTTx equipment. Typical applications would be holding up remote equipment deployed using remote/line powering solutions, which are susceptible to brief outages (due to transients and GFI resets), as well as local powered remote systems deployed with ...

Alpha has provided specialized uninterruptible power supplies (UPS) for more than 40 years. With impressive backup power capabilities, integrated generators, dual power grid switching and enhanced battery thermal management, an Alpha CableUPS ensures improvement in the overall efficiency and reliability of a broadband network.

The Alpha Micro Series provides constant, reliable backup power for Access Control, Security, Public Utility and Telecommunications applications in a compact all-in-one enclosure. The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series, for lower power applications in a single, easy to install cabinet.

life. The Alpha® Traffic Mini BBS provides constant, reliable backup power for Traffic, ITS, Access Control, Security, Public Utility and Telecommunications applications in a compact, all-in-one enclosure. The system provides the same functionality as the Alpha class leading FXM Series, for lower power space constraint applications, in a

The Alpha SE48-2216 Outdoor Enclosure is designed to protect traffic industry battery backup power system components from harsh outdoor elements. The rugged enclosure is made of 0.125" aluminum and designed to easily accommodate an Alpha uninterruptible power supply (UPS) module, Alpha transfer switches, and up to four AlphaCell(TM) 195 GXL ...

The HTU UPS is a durable, high operating temperature UPS, ideal for outdoor applications. It is a combination of an inverter, battery charger and AC transfer switch in one complete system with a peak conversion efficiency of 88%. It has an overload capacity of 300% for 20sec to support tools and equipment longer. The HTU features power factor corrected, sophisticated multi-stage ...

Alpha Technologies manufactures many different power products including Alpha UPS systems (standby and non-standby), TVSS, batteries, enclosures, and accessories. Alpha Industrial Power is a division of Alpha Technologies and supplies ...

The Alpha Micro 100 is a reliable outdoor rated uninterruptible power supply (UPS) or backup power solution that supports loads up to 100W. The Micro 100, by Alpha, an EnerSys company, is protected by an outdoor

Alpha backup power

rated (NEMA 3R) enclosure designed for ...

Orlando, Florida. May 21, 2019 - Alpha, an EnerSys company, has joined the Safer Buildings Coalition (), demonstrating its commitment to help develop backup power standards that enhance Public Safety Distributed Antenna Systems.. The Safer Buildings Coalition is an independent, non-profit organization focused on advancing policies, ideas and ...

Alpha Inverters, by Alpha Technologies, an EnerSys company, offer the latest technology in modular power systems to support small to mid-sized critical AC loads in a variety of standard and custom configurations. With a range of inverters for most applications, this family includes Alpha's Modular Power System HP2 that offers Telecom-grade AC power for critical loads.

Alpha Digital Portable Power Station 155Wh/42000mAh, Rechargeable Emergency Backup Lithium Battery with 110V/100W AC Outlet, 12V DC Output, USB QC3.0 & Type C, LED Flashlight ... The portable power station with a compact handle design is not only for emergency backup power at home, but also for camping or wherever you need power when you are on ...

RUNS FOR 6 DAYS DURING POWER OUTAGE (5 MIN CYCLES) USES SINGLE DEEP CYCLE BATTERY ... The FloodProtext WiFi Module allows the Alpha unit to send emergency text and email notifications whenever it detects the threat of flooding. ... DUAL BATTERY KIT DUAL BATTERY KIT. You can double the run time of your Alpha Battery Backup System by adding a ...

Alpha Powers the In-Building Public Safety Radio System. Alpha's complete suite of expertise in reliable power, enclosure design, and monitoring come together in our backup power solutions for Public Safety Communications equipment. Whether it is a simple repeater or a large in building DAS system, Alpha has the right solution for your ...

Designed to provide reliable power for days of adventure and outdoor activities; 2 Different Ways to Recharge: Supports USB and solar charging. You can charge it using a wall outlet for everyday use and rely on solar charging as an emergency backup solution. Stay powered wherever you go with this versatile and reliable power bank.

Capacity and Power: When choosing a system, consider your home's current capacity and power to determine the appropriate battery backup system you will need. Choosing a system with inadequate ...

The Volt is a high performance battery back-up sump pump system with more pumping power than any other system in its class. The Volt has an extended runtime, it comes equipped with with a reliable solid state switch and optional text alerts. ... BETTER. The Alpha Battery Backup Sump Pump System protects your basement in ways that others system ...

The next generation in battery backup systems brings a refreshed look, increased processor horsepower,

Alpha backup power

advanced security and configurability to the proven FXM outdoor family. ... With over 4 decades of industry leadership in POWER, Alpha has established itself as the preeminent total power solutions provider and one stop source for DC, AC, and ...

The Alpha Micro outdoor UPS system provide reliable back-up power for access control, security, public utility and telecommunications applications. The Alpha Micro has the same functions as the FXM with lower power applications. For extended back-up times, add-on battery cabinets are optional. The Alpha Micro comes with Automatic Voltage Regulation (AVR) providing stability ...

The Alpha Micro Series provides constant, reliable backup power for Access Control, Security, Public Utility and Telecommunications applications in a compact all-in-one enclosure. The Alpha Micro UPS Series provides the same functionality as the Alpha FXM Series, for lower power applications in a single, easy to install cabinet.

The Alpha Micro 350 is designed to perform in the most extreme demanding environments and ensure equipment in security ... Products of the Micro Series are rugged compact all-in-one UPS solutions used worldwide where clean backup power is needed. Designed to perform in the most extreme demanding environments, Alpha Micro units ensure equipment ...

The Alpha Micro 350 is a rugged compact all-in-one UPS solution installed worldwide to provide backup power. The Micro 350, by Alpha, an EnerSys company, is designed to perform in the most extreme and demanding environments where more traditional UPS can fail. It protects equipment and provides clean backup power in applications such as ...

The Alpha® PS41-2730-CXRF is a charger and battery backup system ideal for sites with BDA systems installed to improve emergency radio communication per UL 2524. The Alpha® PS41-2730-CXRF enclosure is integrated with a Cordex® HP 48 V-1.2 kW rectifier shelf resulting in a fully featured 48 Vdc front access power system in a compact form factor.

Alpha Technologies provides the Cable TV/Broadband, Industrial and Renewable Energy industries with the most reliable, technologically advanced and cost-effective powering solutions available. Alpha offers innovative powering solutions that are designed for the future; built to support expansion and provide unlimited opportunity. Widely used in cable television, ...
