

Backup computer power supply

Why do I need a battery backup?

In order to protect your computer against power supply interruptions, you need a battery backup. UPS units are like power strips that contain a big battery inside, providing a buffer against power supply interruptions. This buffer can range from a few minutes to an hour or more depending on the size of the unit.

Does a UPS battery backup need to power up?

Unlike a backup generator, it does not need to power up in order to start generating power. In other words, if you experience a power outage in your area, your machinery should not shut down if it is plugged into a UPS battery backup.

Can a UPS battery backup cause a power outage?

In other words, if you experience a power outage in your area, your machinery should not shut down if it is plugged into a UPS battery backup. Many models of uninterruptible power supply (UPS) also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics.

What is an uninterruptible power supply (UPS)?

What is a UPS? An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating power.

Where can I buy computer uninterruptible power supply units?

Amazon.com: Computer Uninterruptible Power Supply Units - Computer Uninterruptible Power Sup...: Electronics Check each product page for other buying options. Only 8 left in stock - order soon. Online shopping for Uninterruptible Power Supply (UPS) from a great selection at Electronics Store.

Why should you use an ups power supply?

While UPS power is great for avoiding a sudden shutdown, you should not expect it to power your equipment for long hours without additional electrical backup, such as a generator. The main purpose of a UPS is to give you time to switch to alternative power or properly shut down your machine. Benefits of an uninterruptible power supply.
