

Ballard power systems bus

What is Ballard Power Systems?

Ballard Power Systems' (NASDAQ: BLDP; TSX: BLDP) vision is to deliver fuel cell power for a sustainable planet. Ballard zero-emission PEM fuel cells are enabling electrification of mobility, including buses, commercial trucks, trains, marine vessels, and stationary power. To learn more about Ballard, please visit www.ballard.com.

Does Ballard Power offer a fuel cell service?

*fields are required. Ballard Power is the leading global provider of innovative clean energy fuel cell solutions that offer superior performance at a reduced operating cost.

How many fuel cell engines does Ballard Power Systems have?

Ballard Power Systems Inc. logo (CNW Group/Ballard Power Systems Inc.) The order of 200 fuel cell engines, representing a total of approximately 20 MW of power, is the second purchase order under the long-term supply agreement announced in January 2024, and double the first purchase order of 100 engines under this agreement.

How much power does a Ballard module have?

From 30kW to 200kW net power, Ballard's heavy duty modules provide flexible solutions for your motive applications including buses, trucks, trains and ships. Get Ballard stories, interviews, news and more--straight to your inbox.

How long do Ballard buses last?

Buses powered by Ballard have achieved durability records with more than 35,000 hours of revenue service. This is equivalent to operating a bus on a 14-hour daily schedule, 5-days per week for more than eight years with no significant maintenance to the fuel cell stack, a core engine component.

Ballard Power Systems recently marked the 30th anniversary of powering its very first fuel cell bus, which was unveiled in Vancouver, Canada in June 1993. Since then, the... [Read More](#) >> Oct. 9, 2023 Hydrogen and Fuel Cell Solutions for Hydrogen Valleys.
