

Buy solar energy leads

How can buying solar leads benefit a solar business?

Buying leads can significantly benefit a solar business by improving sales and fostering valuable partnerships. There are plenty of different providers offering different types of solar leads, catering specifically to the residential solar industry. Here's a comparison of these services offered by various solar lead generation companies:

How much do solar leads cost?

Most installers who are trying to grow their sales teams need to buy high-quality solar leads at a reasonable cost. So, what's considered reasonable? On average, solar leads cost between \$25 and \$300, with prices changing due to factors like where you're located and how many other solar companies the leads are shared with.

Where to buy solar leads?

UpLead is the #1 place to buy solar leads as we connect you with the very best sources. We thoroughly vet and test each solar lead provider. We start by finding vendors with a good reputation in the industry and move to a pilot testing phase for each provider focusing on lead accuracy and conversion rates.

Do you need a solar leads list?

Just about every solar sales professional has purchased a leads list in the past, which goes to show you it's an effective strategy--assuming you use it wisely, of course. Purchasing leads lists will help you generate solar leads fast.

Are buyable leads lists a good way to generate solar leads?

Purchasing leads lists will help you generate solar leads fast. This is especially helpful when building an inbound marketing strategy, as this kind of tactic can take a while to bear fruit. There is a downside, however. Buyable leads lists don't always feature the best solar leads.

How do I generate leads for my solar business?

To generate leads for your own solar business, find your target market, tailor your message, use local directories and social media, SMS and email marketing, and community events. Here's how: Find your target market: Are your ideal customers homeowners or businesses? What are their demographics, age, and energy spending habits?

Brief Recap: Buying Solar Sales Leads vs. Generating Leads. Whether to buy solar leads or generate your own ultimately comes down to personal preference. But as a general rule: If you're just starting out, buying solar leads is usually the better option.
