Does the government offer free solar panels?

The government does not have any programs that offer totally free solar panels. However, several state and federal government programs can help you access solar energy equipment with lower upfront costs. These tax credits and incentives can reduce solar installation costs, making solar energy more accessible.

Are 'free' solar panels a good idea?

Companies often offer "free" solar panels through leases or power purchase agreements (PPAs), where they install and maintain the panels at no upfront cost. "Free" solar panels can result in initial savings on your energy bills, but in the long run, the savings may not be as significant as owning your solar panels outright.

Do low-income solar programs offer free solar panels?

Low-income solar programs don't typically provide completely free solar panels, but they can greatly reduce installation costs. Most of the programs provide rebates or grants to cover the majority of rooftop solar installation costs for qualified applicants, but there may still be some costs or payments required.
