

Cleaning solar panels with soap

How do you clean solar panels?

The best way to clean solar panels is to use a soft-bristled brush or squeegee specifically designed for solar panels, along with a mild soap or specialized cleaning solution. Avoid abrasive materials, excessive pressure, and cleaning during the hottest part of the day. Rinse thoroughly and dry the panels to prevent water spots.

Can you clean solar panels yourself?

You can clean solar panels yourself in a few simple steps or seek out a cleaning company that can do it for you. Like anything you keep outside, solar panels can get covered in dirt, dust, and debris. Rainfall usually removes most of that, but regular intentional cleanings will keep your system in top shape!

How do you clean a solar inverter?

Shut off your solar panel system. This cuts the power flowing to the inverter and should always be the first step. Put on your rubber gloves and boots. Use a soft brush to remove debris like dirt, dust, or animal droppings. Mix dish soap with lukewarm water and gently wash the surface of the panels with your soft sponge or cloth.

What is the best soap for cleaning solar panels?

In general, the best soaps for cleaning solar panels are ones that cover several factors such as the type of panels, the type of dirt or debris that needs to be cleaned, and the location of the panels. Using the wrong type of soap can damage the panels and reduce their efficiency, so it is essential to choose the right one.

When should I clean my solar panels?

Pro Tip: Always clean your solar panels in the morning or evening. During the middle part of the day the panels can get very hot making cleaning dangerous for both you and the panels. Refer to your manual for instructions prior to shutting down the system and beginning to clean.

Should I hire a professional to clean my solar panels?

Just like washing your car or cleaning your home, you can hire a professional to clean your solar panels. If you have a rooftop system, it may be a good idea to call a professional cleaning service. In addition to the convenience of not climbing up on the roof yourself, professionals are properly equipped for rooftop safety.
