

Companies that make solar panels

The top five solar panel manufacturers in the U.S. are First Solar, Qcells, Silfab, Jinko Solar, and Mission Solar. These companies produce high-performance solar panels for residential, commercial, and utility-scale installations.

October 28, 2021 - Today, SolarReviews, the leading American consumer review and rating website for solar panel installation, released their first-ever solar manufacturer ranking system that objectively evaluates the top solar panels available in 2021. The #1 solar panel brand is LG Solar, followed by Q Cells (#2) and LONGi Solar (#3).

We reviewed national solar installers with solid reputations and a history in the business - such as innovative companies like Elevation and straightforward options like Palmetto Solar - to...

Home. Solar Panel Buyer's Guide. Solar Panels. Get Solar Quotes Online. EnergySage 2023 Solar Panel Buyer's Guide. Browse and compare solar panels from top manufacturers on the EnergySage Buyer's Guide. To learn about other solar energy system components, visit EnergySage's solar inverter and solar battery buyer's guides.

At EnergySage, we've rated thousands of solar panels made by dozens of manufacturers based on efficiency, power output, warranty, and other important specs that allow each panel to make the most possible electricity over the longest period.

SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer the best solar panels. The type of solar panel, power output, efficiency, performance in warm climates, warranty, and price are the key factors to assess when comparing solar panels. The best solar panel for your home can depend on your roof space, shading, and climate.
