

Crv3 rechargeable lithium ion battery

What is a CR-V3 battery?

A CR-V3 battery (sometimes CRV3) is a type of disposable high-capacity 3-volt battery used in various electronic appliances, including some digital cameras. It has the shape and size of two side-by-side AA batteries. This allows CR-V3 batteries to function in many (though not all) devices originally designed for only AA batteries.

What are Energizer CRV3 photo batteries?

Never miss capturing a moment: Energizer CRV3 Photo Batteries deliver precise, long-lasting performance to your camera and photo equipment. But it doesn't stop at photos: These lithium batteries can also power up your high-tech MP3 devices, flashlights, flash units, and even night-vision goggles.

How many AA batteries does a CRV3 camera take?

The battery compartment of this camera is designed to accept four AA cells or two CR-V3 batteries. A CR-V3 battery (sometimes CRV3) is a type of disposable high-capacity 3-volt battery used in various electronic appliances, including some digital cameras. It has the shape and size of two side-by-side AA batteries.

What is rcrv3 3 volt lithium ion battery & charger?

RCRV3 3 Volt Lithium Ion Battery & Charger. Designed for high performance for digital cameras. Faster flash recovery time than AA batteries Long shelf performance with low self discharge rate. Retain >90% the original charge after one month storage Charges 1 CRV3 rechargeable battery in 2-3 hours with smart auto cut-off function for safety

What type of battery does a Honda CRV use?

Honda CRV uses various types of car batteries such as lithium-ion batteries, lead acid batteries, and SLI batteries. These batteries have different characteristics and they are best suited for different applications. How long is the warranty for the Honda CRV battery?

What is a CR 3 volt lithium battery used for?

The CR 1/3N 3Volt Lithium battery is used in cameras, toys, and any personal electronics that use CR-1/3N lithium batteries.
