

Electrolux 4b-h403 honeywell central vacuum system power unit

The Electrolux Honeywell 4B-H403 unit is an impressive feat of engineering. It boasts an airflow of 500 air watts, moving the air through the vacuum system at a rate of 120 cubic feet per minute. However, the central vacuum unit remains quiet with a maximum sound output of 65 decibels.

Unlike portable vacuums that release vacuumed allergens back into the air through the exhaust, the SMP400 extracts dust, dirt, and debris from the house to the main power unit in the basement or garage and then exhausted outside. Covers Up to 3,000 Sq Ft Replaces the 4B-H403 Honeywell Central Vacuum System Power Unit Bagged/Bagless Hybrid Model ...

The Honeywell 4B-H403 Central Vacuum System Power Unit features a powerful 500-Air Watt, 120-Volt, 13.7-Amps Dual-stage motor delivering 110-Inches of suction power to Honeywell's central vacuum system.

Find many great new & used options and get the best deals for Electrolux 4b-h403 Honeywell Central Vacuum System Power Unit - Corded at the best online prices at eBay! Free shipping for many products!

The 4B-H403 by Honeywell is designed for the smaller sized home up to 3,000 square ft. With 110" water lift, the 4B-H403 produces 500 air-watts (suction power) providing a deep clean with performance in power. Running on 120 volts, this Honeywell central vacuum uses only 13.7 maximum amps.*.

Choose from a selection of genuine Honeywell central vacuum power units. Honeywell offers bagless units that have a permanent, self-cleaning filter. These units feature bypass motors and warranties of 5 years. Some models feature a utility inlet on ...
