

# Esa solar energy llc

Orlando, FL - ESA is announcing the completion of the first phase of a new 3.6 MW solar project in Central Florida, continuing its expansion as a leading provider of clean energy solutions for businesses. This three-phase solar farm project is part of ESA's ongoing efforts to provide pathways to decarbonization for companies and communities nationwide.

By combining electrification solutions, they drive impactful change from coast to coast. Solar Farm Development: ESA Solar partners with landowners to create solar farms. Landowners receive a fixed income by leasing their land for solar energy generation. These solar farms contribute to clean energy adoption and economic growth.
