

Ge power 8a 10kva nuclear imaging backup replacement batteries

Does GE Healthcare use a double conversion UPS?

Enables the DI system to complete scanning after the loss of supply power and allows for the saving of valuable data and orderly system shutdown GE HealthCare tests and approves the UPSs listed in this catalog for compatibility with GE HealthCare Diagnostic imaging systems. All solutions are On-Line Double Conversion UPS.

Can GE Healthcare repair or replace a non-conforming part or specialty component?

If Customer promptly notifies GE HealthCare of its claim during the warranty and makes the part or Specialty Component available, GE HealthCare will (at its option and subject to the foregoing terms) repair, adjust or replace (with new or refurbished/repared) the non-conforming part or Specialty Component.

How do I return an item to GE Healthcare?

To obtain a full refund or exchange of the item within the 30 day return period (subject to the 15% restocking fee) customer must request a return materials authorization (RMA) from GE HealthCare and return the item to GE HealthCare utilizing this RMA number. Items must be returned in the original packaging, unused and free of damage.
