What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

What is community solar?

A new Environmental Protection Agency program is giving \$7 billion to programs that fund rooftop solar panels, batteries to store solar energy and something called community solar. David Widawsky at the EPA says community solar allows renters and others who can't install panels to tap into solar energy generated at a shared site, like a solar farm.

What is the Solar for all program?

The Solar for All program also advances President Biden's Justice40 Initiative, which set the goal that 40% of the overall benefits of certain federal climate, clean energy, affordable and sustainable housing, and other investments flow to disadvantaged communities that are marginalized by underinvestment and overburdened by pollution.

What is a solar for all grant?

The Solar for All grants aim to speed up that shift, says David Widawsky, director of the EPA's Office of the Greenhouse Gas Reduction Fund, which manages the program. But it isn't just rooftop solar. Widawsky says the money will also go toward batteries that allow solar customers to store their energy.

The Delhi Solar Energy Policy 2023, an initiative by the Delhi government, targets expanding the city's solar capacity to 4,500 MW by 2026-27, blending 750 MW of rooftop solar within the state with about 3,750 MW of utility-scale solar from outside.
