Is Green Power Energy worth the wait?

Green Power Energy was well worth our long wait in delving into the world of solar. Reply from Green Power Energy: Hi Sandra, thank you for taking the time to review your experience with Green Power Energy! We appreciate your business and the compliments on our team.

Are solar panels a good investment?

Generally, yes. An oft-cited 2019 study by Zillow found that homes with solar panels sold for 4.1% more than comparable homes without solar. As with everything in real estate, location matters.

How efficient are solar panels?

Most solar panels have efficiency ratings between 15% and 22%. Solar battery backup: A solar battery backup system stores excess energy generated by solar panels, enabling you to use that stored energy when the sun isn't shining, such as at night or during power outages.

Which solar panels are best?

CNET's highest-rated solar panels fall to SunPower Maxeon and REC. How long do solar panels last? A typical solar panel warranty guarantees a certain level of production (typically around 85% to 92% of its original production) after 25 years. Solar panels often deteriorate at slower rates and should continue producing after that point.

What is the best solar panel warranty?

Measured by guaranteed production after 25 years, the best solar panel warranties come from Maxeon (SunPower), Panasonic and REC. Some solar companies are starting to offer 30-year warranties (though they might have a lower 25-year guarantee than the companies above). Measured by length, the best warranties come from JA Solar and ZNShine Solar.

Is going solar a good idea?

Going solar is a fantastic method to cut down on your monthly power bills. According to a Forbes Home solar survey, 34% of people opt for solar primarily to save money on their monthly bills, which is a compelling reason for many homeowners to invest in solar energy.
