Power Ratings Surpass 700W. The utility solar industry has been slowly shifting towards larger, higher-wattage panels, with the front runners in the race traditionally being Trina Solar, Jinko Solar, Canadian Solar, Risen Energy and JA Solar. These huge, well-established companies were the first to manufacture high-power panels with ratings above 600W.

Hawaii Energy's cash rebates help you invest in an energy-efficient home. These installations quickly pay for themselves through the savings they provide year after year.

Hi-Power Solar did an exceptional work on installing my solar panels, Tesla battery, and solar attic fan. A special thanks to their lead electrician Rico, and his electrician Cameron, and also for the Lead roofer Justin and his team Makana & Micah. They all did hard work rain and shine without compromise.

[illegible]

HI-Power Solar works with some of the most recognized and trusted solar panel, inverter, and backup battery manufacturers. Among others, the solar company installs solar panels from SunPower, which come with one of the most comprehensive solar warranties available -- just ask about the 25-year Complete Confidence warranty.

Solar water heating systems include storage tank(s) and solar collector(s) or solar panel(s). There are two types of solar water heating systems: active, which have circulating pumps and controls, and passive, which don't. Hi-Power Solar uses an active system, as this is the most efficient system in Hawai'i because of our climate.
