

High-capacity power bank backup battery for cell phone

What are the best wireless portable chargers & power banks?

For Qi-compatible devices, we also have a separate guide to the best wireless portable chargers and power banks. The best replacement for your original charger is the Nekteck 60W USB-C GaN Charger. It's cheaper and smaller but just as powerful and reliable.

How much battery does a power bank hold?

We sought out power banks weighing 8 ounces (half a pound) or less, making them easy to carry around in a wallet, pocket, or bag. We preferred power banks rated for at least 2,000 mAh and up to 10,000 mAh capacity, which tells you roughly how much battery life they hold.

Which battery is best for power banks?

Anker is the best in part because it packs more power into its batteries at a lower weight. Its batteries charge faster than competitors. Its small Anker Nano battery has the best power-to-weight ratio of any battery on our list. Which brand is best for power banks in 2023? Anker is making the best power banks right now by far.

What is the best portable power bank?

If you need the most portable power bank available, the TravelCard Plus is slim enough to fit in a large wallet, and it packs just enough power to finish the night in style. It even has USB-C and Lightning plugs attached for convenience.

Does a rechargeable power bank have a lithium-ion battery?

Nearly every rechargeable power bank you can buy (and most portable devices) contain a lithium-ion battery. These beat other current battery types in terms of size-to-charge capacity, and have even increased in energy density by eight fold in the past 14 years.

Will a 5000 mAh power bank charge my iPhone 15?

Any power bank that is 5,000mAh or smaller will probably not guarantee 100% charge on an iPhone 15 or larger phone. If you have a big battery phone like the Galaxy S24 Ultra, which packs 5,000mAh inside, you'll need a power bank closer to 8,000mAh or more if you want a full recharge.
