Now that you have the entire cabinet built (Go you!!), you should inspect your cabinet for any imperfections, nicks, dents, holes, etc. and patch it up with wood filler using your putty knife. Once the wood filler has dried, use your orbital sander and sand everything down. Sanding is a bit tedious and super messy!

## Homemade home energy storage cabinet

Under-Cabinet Hanging Mason Jar Storage. Source. If you need to free up some counter or cabinet space, simply screw the lids for some large mason jars into the underside of the cabinets (make sure your screws are large enough to secure the lid, but not too long that they poke through the other side).
