Journal Impact Factor (JIF): 6.9 5-year Impact Factor: ... &#187; CSEE Journal of Power and Energy Systems. Abbreviation: CSEE J POWER ENERGY ISSN: 2096-0042 eISSN: 2096-0042 Category: ENGINEERING, ELECTRICAL & ELECTRONIC - SCIE ENERGY & FUELS - SCIE. ... Power System Technology Press.

Note: The impact score or impact index shown here is equivalent to the average number of times documents published in a journal/conference in the past two years have been cited in the current year (i.e., Cites / Doc. (2 years)). It is based on Scopus data and can be a little higher or different compared to the impact factor (IF) produced by Journal Citation Report.

Energy Systems is a peer-reviewed journal focusing on mathematical, control, and economic approaches to energy systems. ... Emphasizes on topics ranging from power systems optimization to electricity risk management and bidding strategies. ... 5-year Journal Impact Factor 1.9 (2023) Submission to first decision (median) 29 days. Downloads ...

The latest journal impact factors (JIF) (Fig. 1) clearly demonstrate that fact. In the 2018 Clarivate Analytics report, out of 161 IEEE periodicals, three IEEE Transactions ranked ...

Aim and Scope. The Ieee Transactions On Power Systems is a research journal that publishes research related to Energy; Engineering.This journal is published by the Institute of Electrical and Electronics Engineers Inc.. The ISSN of this journal is 8858950.Based on the Scopus data, the SCImago Journal Rank (SJR) of ieee transactions on power systems is 3.726.

The IEEE Transactions on Sustainable Energy is a journal aimed at disseminating results of research on sustainable energy systems that can be integrated into the power transmission and/or distribution grid. The journal publishes original research on design, implementation, grid-integration and control of sustainable energy technologies and systems.

The Impact IF 2023 of IEEE Open Access Journal of Power and Energy is 3.56, which is computed in 2024 as

per its definition. IEEE Open Access Journal of Power and Energy IF is decreased by a factor of 0.64 and approximate percentage change is -15.24% when compared to preceding year 2022, which shows a falling trend. The impact IF, also denoted as ...

The Impact IF 2023 of Proceedings of the Institution of Mechanical Engineers, Part A: Journal of Power and Energy is 1.66, which is computed in 2024 as per its definition. Proceedings of the Institution of Mechanical Engineers, Part A: Journal of Power and Energy IF is decreased by a factor of 0.34 and approximate percentage change is -17% when compared to ...

The Journal of Power and Energy, Part A of the Proceedings of the Institution of Mechanical Engineers, is dedicated to publishing peer-reviewed papers of high scientific quality on all aspects of the technology of energy conversion systems. View full journal description This journal is a member of the Committee on Publication Ethics (COPE).

IEEE once again dominated the citation rankings across multiple technology fields including Electrical and Electronic Engineering, Telecommunications, Artificial Intelligence, ...

The IEEE Open Journal of Power Electronics (OJPEL) is a 100% open access journal that publishes high-quality, peer-reviewed papers. This means that all content is freely available without charge to users and their institutions. Users can copy, distribute, download, link, print, read, and search the full texts of the articles and can use them for any lawful purpose (as long ...

The IEEE Power and Energy Technology Systems Journal (PETS-J) is now the IEEE Open Access Journal of Power and Energy (OAJPE). The journal has a broader scope and both academic and practice-oriented articles will be published. Click here for more information about the IEEE Open Access Journal of Power and Energy (OAJPE)

Abbreviation of IEEE power and energy technology systems journal. The ISO4 abbreviation of IEEE power and energy technology systems journal is IEEE power energy technol. syst. j. . It is the standardised abbreviation to be used for abstracting, indexing and referencing purposes and meets all criteria of the ISO 4 standard for abbreviating names of scientific journals.

IEEE Transactions on Power Delivery has an h-index of 214 means 214 articles of this journal have more than 214 number of citations. The h-index is a way of measuring the productivity and citation impact of the publications. The h-index is defined as the maximum value of h such that the given journal/author has published h papers that have each been cited at ...

IEEE journals lead the field in the latest Impact Factor and CiteScore rankings. IEEE continues to publish articles of the highest quality and impact according to the latest Journal Citation Reports(TM) from Clarivate Analytics and CiteScore(TM) metrics by Scopus, as both released their latest reports in ...

Journal Impact Factor (JIF)\* 5-Year Impact Factor\* Quartile (JIF) JCI Eigenfactor ... OAJPE IEEE Open Access Journal of Power and Energy Full Open Access N/A2687-7910 ESCI 3.8 0.52 0.00085 1.113 ... OJVT IEEE Open Journal of Vehicular Technology Full Open Access N/A2644-1330 ESCI 6.4 1.10 0.00075 1.827

The IEEE Open Access Journal of Power and Energy is intended to be a technical journal focusing on the development, planning, design, construction, maintenance, installation and operation of equipment, structures, materials and power systems for the safe, sustainable, economic, and reliable conversion, generation, transmission, distribution, storage, and usage ...

The latest impact score (IS) of the IEEE Transactions on Power Systems is 7.82 is computed in the year 2023 as per its definition and based on Scopus data. 7.82 It is decreased by a factor of around 0.92, and the percentage change is -10.53% compared to the preceding year 2021, indicating a falling trend. The impact score (IS), also denoted as the Journal impact score (JIS), ...

IEEE once again dominated the citation rankings across multiple technology fields including Electrical and Electronic Engineering, Telecommunications, Artificial Intelligence, Computer Hardware, Automation & Control Systems, and more, according to the 2023 Journal Citation Reports (JCR) from Clarivate, released in late June 2024.

The Impact IF 2023 of IEEE Power and Energy Magazine is 2.30, which is computed in 2024 as per its definition. IEEE Power and Energy Magazine IF is increased by a factor of 0.14 and approximate percentage change is 6.48% when compared to preceding year 2022, which shows a rising trend. The impact IF, also denoted as Journal impact score (JIS), ...

The allocation includes funding for engineering-scale testing of CO<sub>2</sub> capture technologies for natural gas combined cycle (NGCC) power plants. Power Engineering provides energy news daily, information about the POWERGEN International conference and exhibition, as well as a free weekly e-newsletter.

IEEE Power and Energy Technology Systems Journal (PETS-J) has been succeeded by the IEEE Open Access Journal of Power and Energy (OAJPE) beginning January 2020. It is now led by Prof. Fran Li from the University of Tennessee. The journal also has a promotion and outreach editor, Prof. Joao Catalao from the University of Porto. Both are ...

This portfolio includes IEEE Access, IEEE Photonics Journal, IEEE Journal of the Electron Devices Society, IEEE Journal on Exploratory Solid-State Computational Devices and Circuits, IEEE Power and Energy Technology Systems Journal, and IEEE Journal of Translational Engineering in Health and Medicine.
