

Ali S et al. Renewable and non-renewable energy and its impact on environmental quality in South Asian countries. *Forman Journal of Economic Studies*. 2017; 13:177-194; 6. Chil#225;n JCH et al. Social impact of renewable energy sources in the province of Loja: Ecuador. *International Journal of Physical Sciences and Engineering*. 2018; 2 (1):13-25; 7.

International Journal of Precision Engineering and Manufacturing-Green Technology centers on the "green" aspects of precision engineering and manufacturing. ... Highlights the manufacturing of new and renewable energy devices. ... 5-year Journal Impact Factor 4.8 (2023) Submission to first decision (median) 26 days. Downloads

Promoting sustainable economic development from the perspective of energy technology is crucial, given limited energy resources and severe environmental pollution. Based on the panel data of China's provinces from 2000 to 2017, we empirically explore the complex relation among energy technology innovation, regional economic growth, and total factor ...

The objective of IJRET is to provide a means for the publication and interchange of information, on an international basis, on all aspects of renewable energy technology. It aims to highlight contributions describing the development of techniques of the different marine ...

In the face of escalating environmental and climate change concerns, the imperative to transition towards a zero-carbon economy has become a focal discussion for government, policy-makers and businesses. Accordingly, this research examines the influence of economic development, green finance, urbanization, technological innovation and renewable ...

View All Issues The journal seeks to promote and disseminate knowledge of the various topics and technologies of renewable energy and therefore aimed at assisting researchers, economists, manufactures, world agencies and societies to keep abreast of new developments in their specialist fields and to unite in finding alternative energy solutions to ...

3. Renewable energy sources and technology. Renewable energy sources are energy sources from natural and persistent flow of energy happening in our immediate environment. They include: bioenergy, direct solar energy, geothermal energy, hydropower, wind and ocean energy (tide and wave).

We definitely assign minimum three reviewers for each manuscript submitted. The last four years" acceptance rates of IJRER are 26% in 2017, 22% in 2018, 25% in 2019, and 28% in 2020. All ...

The Journal of Renewable and Sustainable Energy (JRSE) is an interdisciplinary, peer-reviewed journal covering discovery, generation, conversion and end-use of renewable and sustainable energy (RSE) relevant to the physical science and engineering communities. Specifically, JRSE focuses on new insights or creative methodologies that addresses the challenges of ...

The International Journal of Energy Research (IJER) is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy makers to present their research results and findings in a compelling manner on novel energy systems and applications. IJER covers the entire spectrum of energy from production ...

The mission of Renewable and Sustainable Energy Reviews is to communicate the most interesting and relevant critical thinking in renewable and sustainable energy in order to bring together the research community, the private sector and policy and decision makers. The aim of the journal is to share problems, solutions, novel ideas and technologies to support ...

Scope: The scope of the International Journal of Electrical Power & Energy Systems (JEPE) is focused on electrical power generation, transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological advancement. The scope covers modelling of power system elements, their design, analysis ...

Frontiers in Energy is an international journal that presents frontiers, ... Established platform for energy technology research and strategic thinking. Editors-in-Chief. Zhen Huang, Shouwei Zhou, Yinao Su, Suping Peng; Journal Impact Factor 3.1 (2023) 5-year Journal Impact Factor 2.9 (2023) Downloads 29,712 (2023) Societies and partnerships ...

Solar Energy Advances, an official journal of the International Solar Energy Society<sup>174</sup>;, is an international multi-disciplinary journal with a focus on a broad range of themes relevant to solar energy technology, systems, policy, applications, and its impact on sustainable development, climate .... View full aims & scope \$2750

Center of Biomass and Renewable Energy (CBIORÉ) Manuscripts accepted in English LCC subjects Look up the Library of Congress Classification Outline Technology: Mechanical engineering and machinery: Renewable energy sources Keywords sustainability engineering environment energy development

This paper empirically investigates to what extent environmental education (EE) at school can explain variation in environmental literacy of 15-year-olds in Colombia, while controlling for several other student- and school-level confounding factors. We use a two-level nested model, where the individual observations are nested within schools. Based on the ...

Motivated by energy security issues and climate change, developing renewable energy and realizing energy

transformation have become important energy strategies of many countries at the time of writing. Renewable energy technology (RET) innovation exerts a significant impact on improving energy structure, energy conservation, and emission reduction.

Energy Technology is well positioned as an international, interdisciplinary journal to record the progress in this field and act as a valuable resource for the energy technology community for years to come. A global energy transition is on the agenda of most governments in developed countries in order to develop a secure and sustainable energy ...

International Journal of Energy Research, 9895219; First Published: 28 August 2024; ... Least-Cost for High Renewable Energy Share in the Distributed Energy System through Integrated Supply and Demand Side Management. ... A Review on Solid Oxide Fuel Cell Technology: An Efficient Energy Conversion System. Amit Talukdar, Amrit Chakrovorty ...

The journal, Renewable Energy, seeks to promote and disseminate knowledge on the various topics and technologies of renewable energy systems and components. The journal aims to serve researchers, engineers, economists, manufacturers, NGOs, associations and societies to help them keep abreast of ... View full aims & scope

The International Journal of Renewable Energy Development (IJRED) is an open access and peer-reviewed journal published by the Center of Biomass and Renewable Energy (CBIORE) at Diponegoro University in Indonesia. The journal aims to promote renewable energy research and development, and to provide a link between scientists and practitioners.

Transition to Renewable Energy Systems Edited by: Detlef Stolten, ... international BMC journal, that particularly welcomes articles from the field of novel energies. ... Citation Impact 2023 Journal Impact Factor: 4.6 5-year Journal Impact Factor: 4.7 Source Normalized Impact per Paper (SNIP): 1.350 SCImago Journal Rank (SJR): 1.066. Speed 2023

Renewable Energy is no longer a niche sector of novel technologies, and we have now implemented renewable energy to a scale where it is expected to triple capacity globally power by 2030 and increase more than 10x by 2050. This integration has had a significant impact on conventional energy ... View full aims & scope \$

Cheaper, affordable, and clean energy is a requirement to achieve sustainable development goals (Zakari et al. 2022; Opoku et al. 2024) can be argued that improving productivity will significantly reduce CO<sub>2</sub> emissions from the energy sector. At the same time, the establishment of renewable energy sources will accelerate the movement towards a carbon ...

Globally increasing energy demand has had a significant impact on development. In Malawi, the net metering

policy, which is part of the framework for independent power producers, has the...

Renewable Energy is a monthly peer-reviewed scientific journal covering research on renewable energy, sustainable energy and the energy transition is published by Elsevier and the editor-in-chief is Soteris Kalogirou (Cyprus University of Technology). According to the Journal Citation Reports, the journal has a 2021 impact factor of 8.634. [1] It was originally established as Solar ...

Resource information. Archival Status. Title proper: International journal of renewable energy technology. Country: United Kingdom. Medium: Online. Digital Archives: CLOCKSS Archive, ...

Renewable Energy is an international, multi-disciplinary journal in renewable energy engineering and research. The journal aims to be a leading peer-reviewed platform and an authoritative source of original research and reviews related to renewable energy. Renewable Energy covers research in the following areas:  
Biomass Conversion Photovoltaic
