Russian energy company Lukoil has filed a preliminary development plan for Eridu oil field in Block-10 in Iraq. Located in the south of Iraq, the new oil field is expected to help increase the output to 250,000 b/d, reported Argus Media, citing the country's oil ministry.

With this in mind, in December 2018 a delegation from Shanghai Electric Group visited the Ministry of Planning in Iraq to discuss plans for a 2500 MW co-located power and desalination plant at Al Fao; images from an MoP press release suggest the rough outline of the concept was being sketched out at the time, following meetings with the ...

It endorsed the Global Methane Pledge. The GOI has initiated multiple gas capture projects with the goal of meeting Iraq's Nationally Determined Contribution to reduce natural gas flaring and increase energy efficiency. These gas projects, if fully implemented, will make Iraq energy independent and will help develop and diversify the economy.

We currently have over 1,000 contractors working across Basra, Baghdad and other remote locations within the Iraq region, on projects such as The Rumaila field. Based in the south of the country, this oilfield is considered to be the fourth largest in the world - NES has supported this project for almost a decade and we are continuing to do so.

The project is currently owned by Government of Iraq. Mosul 3 is a pumped storage project. Contractors involved Franco Tosi Meccanica was selected as the turbine supplier for the hydro power project. The company provided 2 units of pump turbines, each with 120MW nameplate capacity. For more details on Mosul 3, buy the profile here.

Overview interest facts - 10th Iraq International Energy Expo & Conference 2025. The Tenth Iraq International Energy EXPO & Conference, Sponsored by The Prime Minister and The Ministry of Electricity, achieves opportunities to enhance cooperation with investment companies specialized in the field of electric energy, as well as to build bridges towards economic integration and ...

The Government of Iraq has awarded two power generation and transmission contracts, valued at more than \$1.2bn, to General Electric. ... General Electric will use its companies for several projects across Iraq. Credit: Photo by Charlotte Venema on Unsplash. ... The market for battery energy storage is estimated to grow to \$10.84bn in 2026.

Thanks to the country's rapid expansion of solar photovoltaics (PV) and wind energy, Jordan has established itself as a trailblazer for the transition to renewable energies in the Middle East. By 2021, 1600 MW of PV and 715 MW of wind energy are scheduled to be grid connected, the majority of which will have been developed
