Cold Storage Lighting Provide LED cold-storage lighting and controls solutions that enable energy and maintenance savings over traditional light sources, while supporting employee productivity with quality task lighting.

Light Source: LEDs are the size of a fleck of pepper, and can emit light in a range of colors. A mix of red, green, and blue LEDs is sometimes used to make white light. Direction: LEDs emit light in a specific direction, reducing the need for reflectors and diffusers that can trap light.

Authentic Design: Wield Master Chief's powerful Type-1 Energy Sword, a legendary melee weapon seen in Halo Infinite. This authentic replica features light-up action and serves as a standing desk lamp. Dimensions: This 1:3 scale Energy Sword mood light measures approximately 14 inches tall including the base.

An ambient light sensor alerts the system when it's dark enough to turn the light on, and to turn it back off again as the sun comes up. Advancements in solar panel energy capture, battery storage, and LED efficacy, combined with cost reductions across all three, enable increasingly capable and cost-effective versions of these products.
