## Monrovia energy storage appliance

Two articles we released last month referring to the future of energy storage as an appliance increasingly found in every home, similar to heat pumps and air conditioners today. But, are batteries really the next must-have gadget for your home? A new housing development in Utah may serve as a model for how to make this prediction a reality.

Based on the latest data from the EnergySage Marketplace, the average Monrovia, CA homeowner needs a 8.56 kW solar panel system to cover their electric bills. That'll set you back about \$19,465 before incentives. Need a bigger (or smaller) system to offset your electricity use? The average price per watt of solar power in Monrovia, CA is \$2.27/W.
