

Monrovia power cabinet energy storage project

What is the Morro Bay Power Plant master plan?

The Master Plan for the Morro Bay Power Plant property started in 2022 as a result of the General Plan/Local Coastal Plan policy LU 5-4 which requires the development of a master plan as a result of the planning permit application received for the Battery Energy Storage System Project.

Does Morro Bay power plant have industrial land use?

Based on results of a human health risk assessment, California Department of Toxic Substances Control (DTSC) has determined that a portion of the site, may to be limited to industrial land use. The Morro Bay Power Plant is located at 1290 Embarcadero (APN 066-331-046) and is approximately 107 acres.

How do energy storage projects work?

Energy storage projects capture power produced by wind and solar resources and discharge the energy back to the electric grid during times of peak demand. In California, electricity demand is highest in the late afternoon and early evening hours when the sun sets, causing solar resources to drop off before winds pick up later in the evening.

Where can I find information about the battery energy storage system (BESS) project?

Applicant Information: In an effort to provide more information regarding the proposed Battery Energy Storage System (BESS) project, Vistra has created a website for their project that includes project information and frequently asked questions (FAQs).
