Cabinet Doors after a light sanding. The next step it to lightly sand the cabinets so there is some "texture" or grit for the paint to stick to. I believe I used 150-grit sandpaper then went over it with a 220-grit sandpaper. Remove all the sanding dust from the cabinets with a cloth or spray it off with an air compressor.

Open shelving: Design the cabinet with a mix of closed storage and open shelving for a more open feel. Under-window cabinets can be customized to perfectly complement a room's style and cater to specific
