According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Greensboro, NC are Olympus Home, Renu Energy Solutions, Solar SME, Inc., NC Solar Now, and Sunshine Saves Inc. How many solar companies are in Greensboro, NC?

How do I choose a solar installer in Greensboro?

Before settling on an installer, request recommendations from others, review the installers you're considering and collect quotes from multiple companies to find the one that meets your needs. You can choose a local solar company in Greensboro or pick an established national brand.

Should you switch to solar energy in Greensboro?

According to the U.S. Energy Information Administration (EIA), switching to solar energy allows Greensboro homeowners to save a yearly average of around \$1,200. Solar companies do not all offer identical services and products. You should look at different companies and get quotes before scheduling your solar panel installation.

Should you buy solar panels in Greensboro?

The amount of sunlight your home gets: Due to Greensboro's high amount of average daily sunlight, you should be able to save a decent amount on your electric bills. How much energy your home consumes: Homes that use plenty of power each month may need more solar panels and, as a result, be more costly, but will also benefit more over time.

What are the best Solar Lease companies in Greensboro?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Greensboro.

How much does solar cost in Greensboro NC?

The average price per watt of solar power in Greensboro, NC is \$2.54/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$21,730 for a 12.23 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Cost of Solar Installation in Greensboro. The cost of home solar panels in Greensboro varies depending on several factors, including your system's expected capacity and the type of solar technology being used. Generally speaking, a typical solar energy system costs \$3,510 per kilowatt, not including preliminary work, labor, or permit fees.
