What is solar energy in New Zealand?

Learn about solar energy in New Zealand, and its advantages and limitations. In October 2022, Electricity Authority data showed 43,641 solar systems installed across New Zealand, adding up to 240 MW. This makes up an estimated contribution of under 1% of total electricity consumption.

How much does solar power cost in New Zealand?

According to the Electricity Authority, the average size of a residential solar power system installed in New Zealand today is 4.4 kW, which would cost roughly \$12,600\*fully installed. A 4.4 kW solar power system would include 10 or 11 solar panels (depending on the size of the panels) and a 4 kW or 5 kW inverter. Is Solar Power Worth It?

How many solar power systems are there in New Zealand?

[3 ]As of the end of December 2023, 56,041 solar power systems had been installed in New Zealand. For new installations added in December 2023, the average residential system size was 6.1 kW and the average commercial system was 46.9 kW. [1 ]

Does New Zealand use solar?

Globally, solar PV uptake has increased significantly over the past decade. While uptake in New Zealand has been slower to date, there is potential for greater utilisation as technology costs decrease, particularly at the grid-scale and on commercial building rooftops. How much of our electricity comes from solar? 2021 data is sourced from MBIE.

Are solar panels a good investment in New Zealand?

A solar power system in New Zealand can easily earn a 10 to 15% return on investment. But this rate of return is likely to increase each year as the price of electricity continues to climb. Unsure if solar panels on your roof will be worthwhile or if the upfront cost will lead to a good payback?

Are solar farms coming to New Zealand?

Distributed solar generation is expected to keep increasing, and New Zealand also now has some grid connected solar farm projects under construction, with more in the pipeline. The first large solar farm is expected to be completed this year.

Harrisons Solar buy-back rate: 18c per kWh; Import/export meter: From \$195 (free when you sign up to the Harrisons Solar offer) Harrisons Solar are currently running a promotion with Mercury. This offer is only available if you install a new Harrisons Solar PV system and sign up on a 2 year residential electricity contract with Mercury.
