

Solar power kit for caravan

You need to calculate the daily power usage of your campervan; once you sort that part out, you can determine the number of solar panels needed by dividing your daily energy usage by the product of the panel's wattage and peak sun hours. Here is a formula for you to calculate: $\text{Number of Panels} = \text{Daily Energy Usage} / (\text{Panel Wattage} * \text{Peak Sun Hours})$.

Fixed Solar Panel - 160W Caravan Kit. \$329.99 Unit price / Unavailable. SKU: 34500000160000. Sold out. ... Our fixed range of solar panels are designed predominately for semi-permanent installations on the roofs of caravans, 4WDs, motorhomes, boats and campers.
