

Solar power kit for van

If you cannot use a conventional rigid solar panel because the roof of your campervan is curved, then a flexible solar panel could be the way to go. A flexible solar panel will follow the contours of the roof and have the added advantage of being much lighter than a tempered glass aluminium-framed solar panel.

If your #vanlife goals include camping off grid and enjoying the freedom of the open road, you need solar. Installing a full solar electrical system on your camper van or RV is a great way to stay connected and enjoy all the creature comforts you need for a nomadic lifestyle..
