

This new Solar Atomic model is based on the original DW6900 model, G-Shock's best-selling case design. With this model, a Solar Atomic Timekeeping system was employed without changing the basic design of the watch. This makes it possible to generate power to keep the watch running with extreme accuracy and minimal exposure to normal lighting. This simple ...

*1 A watch operating system driven by Casio's original solar-charging system that uses GPS (Global Positioning System) to determine the current location anywhere on Earth and correct the time automatically by GPS signal or standard-time radio wave reception. ...
