UK energy storage investor Gresham House and the clean energy arm of utility NextEra have moved forward with battery storage projects in California, US. The two announcements come shortly after the internal revenue service (IRS) clarified the requirements for the domestic content adder to the standalone energy storage investment tax credit (ITC).

With interest shown by developers in Turkey to deploy energy storage, Energy-Storage.news Premium hears how LFP import duties could encourage domestic supply chains to help meet demand. What was claimed to ...

A just-commissioned solar and battery storage system will reduce diesel consumption by at least 80% at a base for 300 humanitarian workers in South Sudan managed by UN migration body IOM.

The short-duration energy storage assets total 889MWh of energy storage capacity with power conversion

South sudan turkey house energy solar reference storage

systems (PCS) enabling 978MW power output to the grid. The utility said the systems will enable it to manage up to a gigawatt of power generation constraints caused by ongoing power grid construction work.

Back in March, Energy-Storage.news heard from Tokcan that the energy storage market in Turkey was "fully open".That came after the country's Energy Market Regulatory Authority (EMRA) ruled in 2021 that energy companies should be permitted to develop energy storage facilities, whether standalone, paired with grid-tied energy generation or for integration ...

Since its IPO in November 2018, Gresham House Energy Storage Fund, a utility-scale battery storage investment fund listed on the London Stock Exchange has seen its total share price return of 27.3% significantly outperform the 7.9% returns across the FTSE All Share weighted index, the company said in reporting its full-year 2020 and Q1 2021 financial ...

Norwegian firm Scatec Solar has linked up with the International Organization for Migration (IOM) to provide a solar-plus-storage system to one of its humanitarian operations in ...

The company is already building a facility of the same size in Ankara, Turkey, through a subsidiary called Pomega Energy Storage Technologies, targeting the promising Turkish market and wider EMEA region, which is expected to open before the end of this year.. Kontrolmatik is involved in everything from EPC contracting to system integration and ...

The energy storage market in Turkey is set to grow substantially in the coming years as 2GW of wind and solar come online each year, according to a interview Energy-storage.news recently did with Can Tokcan, managing partner at ...

The world's newest country, South Sudan, is also the least electrified. A period of growth that began after a 2005 peace deal and continued after independence in 2011, saw billions of dollars in oil revenue and strong international support. This period was for powered by diesel generators and...

EVE Energy subsidiary EVE Power has announced the signing of a new MoU with Turkey's Aksa Jeneratör Sanayi, extending the two companies'' existing partnership. The new agreement involves the ...

Karim Wazni, managing director of Aggreko Microgrid and Storage Solutions, told Energy-Storage.news that the "first of its kind" project for Turkey was "particularly exciting," not only as it could help prove the business case for the wider rollout of battery storage in the country to support the reliability of existing grid infrastructure, but also because it could show what is ...

Renewable energy project developer Margün Enerji is partnering with OEM Huawei to deploy a 2MW battery energy storage system (BESS) at a solar plant in Turkey. Margün Enerji made an application with the Energy Market Regulatory Authority in Turkey to add the 2.064MWp BESS to its 20.17MWp
