

What is Tesla Solar Roof?

Tesla Solar Roof is designed to maximize your roof's energy production without compromising the aesthetics of your home. Solar Roof is constructed with a combination of glass solar tiles and architectural-grade steel tiles. Each tile is virtually indistinguishable in color and trim.

What is Project Sunroof?

Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers.

What is solar roof & how does it work?

As a fully integrated system, Solar Roof can maximize your solar generation and help you take control of your monthly electricity bill. Solar Roof brings your roof to life with beautiful tiles that can power your home with clean energy for decades. Learn more about installing Solar Roof.

Does a solar roof pay for itself?

Created for maximum durability and designed to integrate directly into your home, Solar Roof can help pay for itself over time with the energy you produce. Every Solar Roof system is designed to integrate seamlessly with Powerwall, a compact home battery that can store energy produced with solar, making it available anytime.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.
